

## Progress in Meeting Degree Production in Data Science, Technology, Engineering, Healthcare and Education

January 2022

In the 2018 session, the General Assembly approved a total of \$28.4 million to increase production of degree awards in the areas of data science, technology, science, engineering, healthcare and education. The funding, targeted towards public four-year institutions (except University of Virginia at Wise), included budget language that identified an expected annual increase by institution and area, totaling 880 awards by 2020 using 2016-17 awards as the baseline year. The awards included bachelor, master, doctoral and first professional degrees identified primarily through the classification of instructional programs (CIP).

In 2020, the state exceeded the total goal of 880 additional awards. Awards in all areas grew from 22,008 in 2017 to 24,090—an increase of 2,082. Awards in 2021 continued to maintain over 2017 levels but grew slightly (306) from the prior year.

The following provides an overview of overall annual award data by award area and institution with comparison data to the goals outlined in the budget language.

### Overall Awards

Total awards in the programs identified in the budget language grew by 2,388 from 22,008 to 24,396 in 2021. Table 1 provided annual awards by year.

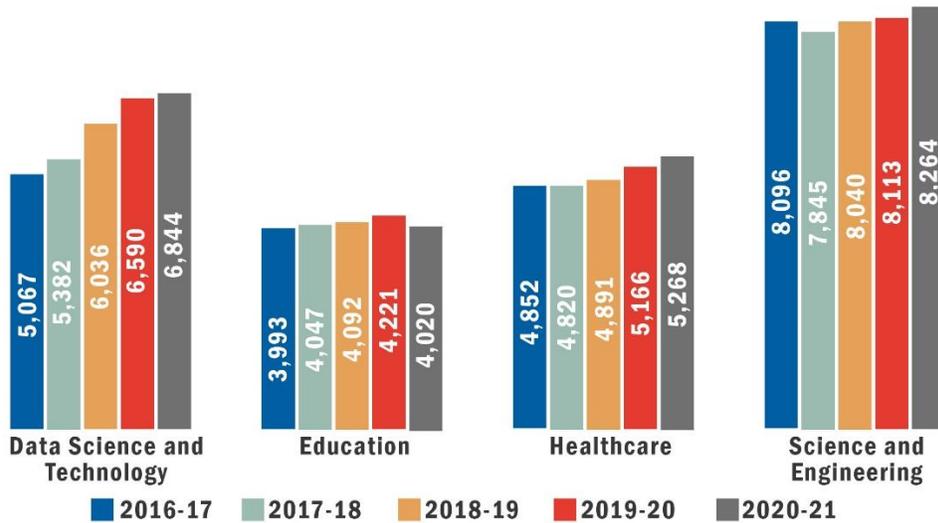

**Table 1: Total Degrees Awarded 2017 to 2021**

Area (2-Digit CIP)	2017	2018	2019	2020	2021
Data Science & Tech (11,14,27,52)	5,067	5,382	6,036	6,590	6,844
Education (13)	3,993	4,047	4,092	4,221	4,020
Science & Engineering (14*)	8,096	7,845	8,040	8,113	8,264
Health (51)	4,852	4,820	4,891	5,166	5,268
<b>Total</b>	<b>22,008</b>	<b>22,094</b>	<b>23,059</b>	<b>24,090</b>	<b>24,396</b>

\*Excludes CIP 14.0901, 14.0903, and 14.1001 as they are reported as data science and technology degrees

The primary growth was in the data science and technology awards (75% growth since 2017) followed by healthcare (17% growth since 2017). Education and Science & Engineering awards grew minimally in the same time period. Chart 1 illustrates the annual growth by award area.

**Chart 1: Annual degrees awarded by area**

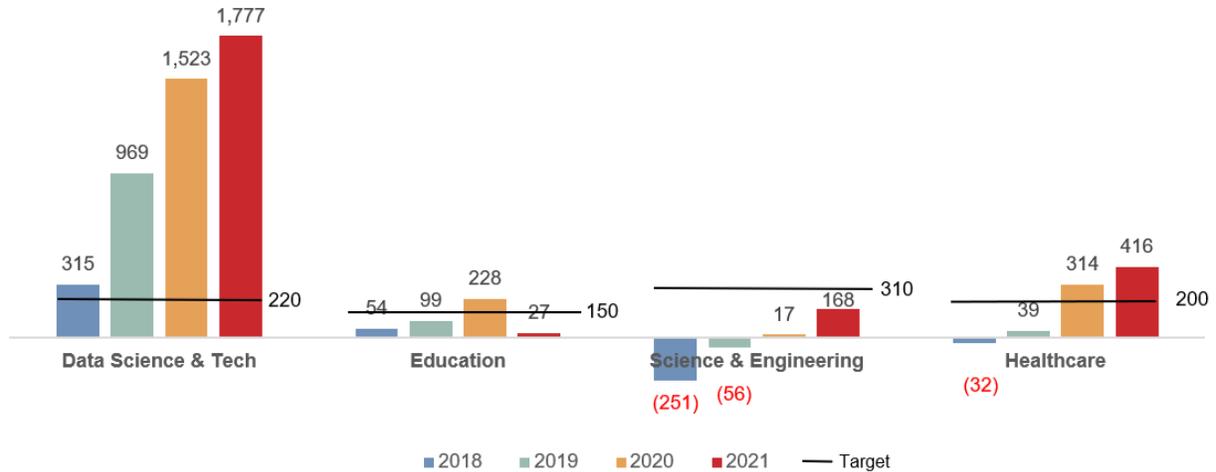

As noted in budget language, institutions were asked to increase their total award production by 880 by 2020. Table 2 provides the expected increase over the baseline year and the actual annual increase 2020 and 2021. Chart 2 illustrates the comparison and notes that the overall target for science & engineering was not met in 2020 and in 2021 and education was not met in 2021.

**Table 2: Annual Award Change Over Base Year 2017 Compared to Expected Annual Growth**

Area (2-Digit CIP)	Expected Annual Increase by 2020	2018 Annual Change over 2017	2019 Annual Change over 2017	2020 Annual Change over 2017	2021 Annual Change over 2017
Data Science & Tech (11,14,27,52)	220	315	969	1,523	1,777
Education (13)	150	54	99	228	27
Science & Engineering (14*)	310	(251)	(56)	17	168
Health (51)	200	(32)	39	314	416
<b>Total</b>	<b>880</b>	<b>86</b>	<b>1,051</b>	<b>2,082</b>	<b>2,388</b>

\*Excludes CIP 14.0901, 14.0903, and 14.1001 as they are reported as data science and technology degrees.

**Chart 2 Expected Annual Change over Base Year 2017 by Area Compared to Expected Annual Growth**

### Awards by Institution

Nearly all institutions increased their awards from 2017 to 2021. Two institutions did not increase, NSU and VSU; however both of these institutions had sharp declines in [enrollments](#) from 2013 to 2015 which impacts awards in the subsequent four to five year time frame. At NSU fall enrollments declined 920 students (15%) from 2014 to 2015. At VSU fall enrollments declined by 1,067 students (19%) from 2013 to 2015. A [report](#) on the impact of changes in federal Parental Loans for Undergraduate Students (PLUS) indicated that HBCUs were disproportionately impacted and experienced larger declines compared to other students. As a note, ODU also had a slight decline in enrollments during a similar timeframe. Given the higher percentage of low-income students, the changes to the PLUS loans also may have impacted ODU and contributed to the lower awards in these areas in later years.

Conversely, in some institutions grew in a similar time period. GMU increased enrollments between fall 2014 to 2016 by nearly 1,400 students and VT increased students by 1,946 students.

**Table 3: Total Awards by Institution, 2017 to 2021**

<b>Inst.</b>	<b>2017</b>	<b>2018</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
CNU	396	379	405	385	427
GMU	3,698	3,913	4,148	4,369	4,628
JMU	1,973	2,018	2,019	2,170	2,247
LU	322	342	326	323	334
NSU	385	346	257	277	256
ODU	3,060	2,983	2,900	2,879	2,892
RU	700	678	745	1,028	987
UMW	357	327	356	424	390
UVA	2,589	2,690	3,042	3,212	3,023
VCU	3,110	3,043	3,215	3,190	3,220
VMI	183	226	183	180	203
VSU	308	287	266	264	246
VT	4,158	4,064	4,443	4,585	4,757
W&M	769	798	754	804	786
<b>Total</b>	<b>22,008</b>	<b>22,094</b>	<b>23,059</b>	<b>24,090</b>	<b>24,396</b>

As shown in table 4, with the decline in overall awards, NSU, ODU and VSU did not meet the annual expected increase. In addition, CNU, VMI, VCU did not meet the expected increase in 2020 awards, but exceeded or met the goal with the 2021 awards. W&M increased awards, but did not meet the goal in 2020 and in 2021.

**Table 4: Annual Award Change Over Base Year 2017 Compared to Expected Annual Growth**

<b>Inst.</b>	<b>Expected Total Annual Increases</b>	<b>2018 Annual Change over 2017</b>	<b>2019 Annual Change over 2017</b>	<b>2020 Annual Change over 2017</b>	<b>2021 Annual Change over 2017</b>

<b>Total</b>	<b>880</b>	<b>86</b>	<b>1,051</b>	<b>2,082</b>	<b>2,388</b>

The remaining tables provide awards by area and changes in awards from 2017 to 2021. Table 5 shows the annual degree awards by area and Table 6 shows the expected annual degree increase and the actual annual degree change. One area to note is that Radford's primary growth was in healthcare which was largely a result of the merger with the Jefferson College of Health Sciences.

Awards in Data Science, Technology, Engineering, Healthcare and Education
